

# Framework

<https://github.com/essepuntato/rash/>  
<http://cs.unibo.it/save-sd/rash>

author

Future works:  
word processor extensions

publisher

Future works: converters into/from  
additional formats

reader

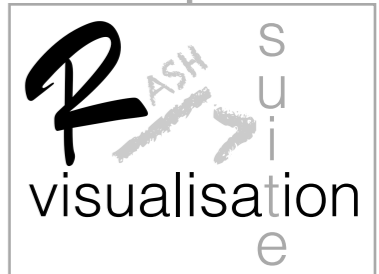

conversion from  
ODT format

conversion into  
ACM ICPS and Springer LNCS  
LaTeX styles

L<sup>A</sup>T<sub>E</sub>X

document visualisation in browser  
alternative CSS layouts available  
(Web-based, Springer LNCS)

The **Research Articles in Simplified HTML (RASH)** is an HTML(+RDF) format for writing academic research articles

Venues that have

already adopted

RASH

Please do not hesitate to contact me for additional information about the RASH Framework or if you would like to use RASH for allowing HTML submissions to your academic event
